PROFESSIONAL SUMMARY

Newly graduated production engineer transitioning to Software Development with substantial hands-on experience with Python and JavaScript. Proven track record in UX/UI design and a Frontend Development for an award-winning project that delivered a solution to a real-world business problem.

WORK EXPERIENCE

Developer Freelance	Aug 2025 — Now <i>Bangbon, Bangkok</i>
- Collaborated with the team by developing API logic for a LINE bot that displays the client’s goods for internal use; the project spanned 4 weeks and was implemented using Python, the Flask API, Docker, and the breadth-first search algorithm. - Contributed to the development of automation scripts that process the images and highlight tumors and anomalies within the CT scan, utilizing Python’s image processing libraries such as Pillow, OpenCV, Scikit-learn, and SciPy.	
Quality Assurance Intern Ryobi Die Casting (Thailand) Co., Ltd.	Jul 2024 — Aug 2024 <i>Amata City, Rayong</i>
Documented the product defects and production standards of the products using Microsoft Excel, ensuring comprehensive and traceable reports for management decisions, client follow-up, and standard compliance.	
Student Intern Store Mate Co., Ltd.	Jun 2024 — Jul 2024 <i>Krathum Baen, Samut Sakorn</i>
Documented and optimized the calculation within Google Sheets, ensuring stock data accuracy and traceability while maintaining industry standard compliance.	

SKILLS

Programming Languages	JavaScript, TypeScript, Python
Frontend	React, Tailwind, daisyUI, shadcn/ui, HTML, CSS, Figma
Backend	MongoDB, Node.js, Express.js, PostgreSQL
DevOps/Tools	Docker, Google Cloud Run

EDUCATION

BEng, Production Engineering , King Mongkut’s University of Technology Thonburi	Aug 2021 — Jul 2025
- Senior project was awarded 3rd place in the Project Day 2025. - Relevant Coursework: Engineering Programming, Data Analytics for Decision Making	

PROJECTS

Frontend Developer , Finocular: OCR Ledger Book with Dashboard	Dec 2025 — Jan 2026
- Designed and developed a full-stack expense tracker with an OCR-assisted autofill form and visualized the spending, which resulted in a thorough analysis of the user’s spending habits. - Tools: HTML, CSS, React, TypeScript, PostgreSQL, Express.js, Node.js, Tesseract.js, and Figma.	
Frontend Developer , MedCheck: Compact Medicine Filtering Software (Award-winning)	Aug 2024 — Jun 2025
- Designed and developed the medicine calculator showing the expected return amount in each month, resulting in a cost reduction of approximately 420,000 THB per year, ensuring data accuracy, and a faster operation time of 99.38%. - Tools: Python, PySide6, QML, and Figma.	

AWARDS & CERTIFICATES

- KMUTT Project Day 2025, Sustainable Bioeconomy and Smart Healthcare** — 3rd place
- Engineering Expo 2025, Project Contest for Sustainable future** — 2nd place
- TOEIC 920**
